

2019 LEGISLATIVE AGENDA

DANVILLE PITTSYLVANIA COUNTY CHAMBER OF COMMERCE

The Danville Pittsylvania County Chamber of Commerce represents approximately 600 businesses employing approximately 20,000 people in the Dan River Region. The Chamber works to project a unified voice on issues that affect the business community in our region.

Our Chamber believes that our region's and the Commonwealth's success depend on investments and priorities that stimulate and advance economic growth and prosperity. We respectfully request our legislators support the following priorities:

Business Climate and Economic Development

We support GO Virginia's work to restore Virginia's position of economic leadership by growing and diversifying the state's economy through the creation of state financial incentives, technical support, and other assistance that will encourage collaboration on private-sector growth and job creation by business, education, and government in each region.

- Expand funding for rural broadband, recognizing that it is an imperative for economic development, entrepreneurship and education.
- Support the Governor's Opportunity Fund and other State-directed incentive programs.
- Support existing enterprise zones in Danville and Pittsylvania County.
- Promote the integration of small business and entrepreneurship development in statewide economic planning efforts.
- Encourage more small business development financing, venture capital formation, and tax incentives.
- Support the continued development and marketing of large-scale industrial parks that serve multiple jurisdictions and foster enhanced collaboration within a region.
- Support continued tax reform that is equitable and broad-based, fosters a favorable business climate, encourages economic development, and promotes prosperity for all Virginians.
- Support for transportation improvements to include supporting a connector road between the Route 58 bypass and the Southern Virginia Mega Site at Berry Hill; upgrading Route 29 to interstate status and designating Interstate 785 for the connecting lanes and on 29 bypass; continuing funding for design and construction of I-73.

2019 LEGISLATIVE AGENDA

Education and Workforce Development

The Danville Pittsylvania County Chamber recognizes that the availability of a technically skilled, trainable labor force is the most persuasive location and expansion factor sought by businesses today, and supports the development of programs and processes that focus on demand-driven jobs that offer at least a living wage.

- Support increased funding for internships, apprenticeships, and other work-based learning opportunities.
- Encourage a well-funded system of public education that begins at birth, strengthens the focus on early childhood education and continues through post-secondary education.
- Support the recognition and designation of localities and regions that achieve the “Certified Work Ready Community” goals as established by ACT, Inc.
- Expand funding for certified training programs and non-credit workforce training.
- Support state policy that aggressively tackles the skills gap, especially in the ‘middle skill’ occupations.

Healthcare

The Danville Pittsylvania County Chamber of Commerce supports innovation to transform Virginia’s health care system into a competitive advantage through improvements in population health, cost, access and quality.

- Promote public policy and private efforts to improve individual wellness and population health, including but not limited to, managed care for public health program participants, employee wellness efforts or community health efforts.
- Support efforts to protect access to quality healthcare in our region and our Commonwealth, including opposing efforts to repeal Certificate of Public Need in ways that threaten patients with higher costs or jeopardize access to care.
